SECRET

NPIC/TSSG/DMD-1675-69

23 June 1969

MEMORANDUM FOR: Director, National Photographic Interpretation Center

SUBJECT : Request for Approval to Expend [redacted] for a Time and Materials Work Order Contract with [redacted]

25X1
25X1

1. The Development & Engineering Division of TSSG/NPIC is occasionally required to make minor electronic modifications on existing equipment or to design and fabricate simple electronic devices. These modifications and developments usually require more time and/or skill than is available in-house, yet the cost of a single task would not justify the normal contractual sequence. It is, therefore, most desirable to maintain a contract with a local contractor to provide minor electronic design and fabrication services.

25X1 2. [redacted] a part of the [redacted] 25X1
25X1 [redacted] has the necessary expertise, clearances, and availability to provide NPIC with the required services in electronic design and fabrication. It is, therefore, recommended that a time and materials
25X1 contract be negotiated with [redacted] with a funding ceiling of [redacted] 25X1

25X1

[redacted]
Chief, Technical Services & Support Group,
NPIC

APPROVAL: _____ 1 July 1969
[redacted]
Director
